Chatterer Extended

This add-on for the formidable "Chatterer" mod by Athlonic will currently add 625 new kerbalized chatter-files for your hearing pleasure.

- Apollo 10 (120 clips)
- Apollo 12 (45 clips)
- Apollo 13 (45 clips)
- Apollo 17 (70 clips)
- STS-51d (100 clips) including female chatter
- STS-61c (98 clips) including female chatter
- STS-63 (39 clips) including female chatter
- Expedition 18 (28 clips) female set only
- Expedition 51 (80 clips) including female chatter

The audio files used for creating the soundclips stem from the NASA Audio Archive (https://archive.org/details/nasaaudiocollection). The STS51d, STS61c, STS-63, Expedition 18 and Expedition 51 thankfully feature female transmissions so Valentina's soundclips from the original "Chatterer" get some much needed support.
